Claims 2-5, 7-12 and 23 are allowable as they depend from claim 1.

Claim 21 is allowable as it depends from claim 20.

Claim 24 is allowable as it depends from claim 6.

Claim 16 is allowable over the art of record because the prior art does not teach or render obvious the entire combination including specifically a measuring device for locating objects enclosed in a medium comprising an evaluation unit performing the evaluating of the detection signal by using an algorithm that separates the measured signal into signal parts originating from the enclosing medium and signal parts originating from the object.

Claims 13 and 22 are allowable over the art of record because the prior art does not teach or render obvious the entire combination including specifically a measuring device for locating objects capable of carrying out a method according to claims 1 and 20 respectively, including evaluating a detection signal by using an algorithm that separates the measured signal into signal parts originating from the enclosing medium and signal parts originating from the object.
